Purpose
Revenues for pine straw paid to forest landowners in Georgia have increased from an estimated $15.5 million in 1999, to $25 million in 2003, $50 million in 2007, $80 million in 2008–2011, to $60 million in 2012–2017. During the period from 1999 through 2017 pine chip-n-saw and sawtimber stumpage revenues in Georgia have declined by roughly 25% - 35%. Many forest landowners and land managers are interested in managing their loblolly, longleaf, or slash pine stands for pine straw. This course will provide information necessary to effectively manage pine stands for pine straw.

Participants will:
• Learn about pine straw yields by species, site quality, land-use history, and basal area.
• Review cut-over and old-field pine straw studies, as well as other factors that affect pine straw yields.
• Learn how the effect of pine straw raking (semiannual, annual, periodic and raking method) relates to soil moisture status, nutrient cycling, stand growth.
• Learn the effect of fertilization on pine straw yields on cut-over and old-field sites.
• Learn how to use diagnostic tools and soils information to determine fertilizer needs and recommendations.
• Learn herbicides that can be used in pine stands to control unwanted vegetation and herbicides that are grass friendly.
• Learn how to control invasive exotic species.
• Learn management alternatives to moving a cut-over pine stand into pine straw production, hear about sequencing fertilizer and herbicide use, and discuss the economics of pine straw in overall pine stand management.

How One Will Benefit
Upon completion of this course, a forest landowner or land manager will be able to make effective silvicultural and economical management decisions on managing loblolly, slash, and longleaf stands for pine straw.

Who Should Attend?
Foresters, land managers, forest landowners, pine straw contractors, and others interested in effectively managing their pine stand for pine straw.

Instructors
Dr. David Dickens – Professor of Forest Productivity UGA-WSF&NR
Dr. David Clabo – Assistant Professor of Silviculture UGA-WSF&NR
The Warnell Continuing Education Program
Daniel B. Warnell School of Forestry and Natural Resources

Registration Fee
The fee for this course is $225 which includes lunch, refreshment breaks, and instructional materials. There is a $25 discount for fees paid and postmarked by 9 Oct 2019.

Continuing Education Credits (applied for)
- 13 Continuing For. Ed. (CFE) hours - Cat 1 (approved)
- 12.5 Continuing Logger Ed. hours - Category B (approved)
- 1.0 hr Cat 23  Pesticide Applicator credit for GA (approved)

Full Attendance is Mandatory to Receive Credit

Tuesday, October 22, 2019

Directions
For directions we suggest using googlemaps.com. You may also contact David Clabo @ 229-386-3672 or e-mail him @ david.clabo@uga.edu.

Special Needs
For special services or dietary considerations contact David Clabo (contact info above) prior to October 11, 2019.

Hotels in the Area Include:
- Comfort Inn & Suites (229-382-8250)
- Days Inn & Suites (229-382-8505)
- Hampton Inn (229-382-8800)
- Holiday Inn Express (229-382-3300)
- Quality Inn (229-382-4410)

Minimum Number of 25 required
A minimum of 25 needs to be registered by the early registration deadline (October 9, 2019) to hold the workshop.
